

Students enrolled in APGOV for the Fall of 2023 would benefit from reading & annotating the following documents before the school year begins. If you have questions over the summer work assignments please contact me at michael.basler@usd469.net.

Summer Read Annotations: *Declaration of Independence, Federalist #10 & Brutus #1*

Directions- Students will read the Declaration of Independence, Federalists #10 & Brutus #1.

- Students will highlight relevant words and passages that support the author's claims throughout the documents.
- Students should circle any words they don't understand and define them in the side margin.
- Students should write down any questions they have while reading that can be addressed in class. I would suggest students write the questions in the margins of the documents.
- Students will connect the ideas they outlined in the various documents to the viewpoints of society and how our government was founded in future assignments.
